

## Wooden Memory Game

Cut along the dotted lines and lay the cards face down.

The object of this game is to turn over pairs of matching cards. In turn each player chooses two cards and turns them face up. If they are the same, then that player wins the pair and plays again.

If they are not the same, they are turned face down again and play passes to the player on the left.

The game ends when the last pair has been picked up. The winner is the person with the most pairs.
